September '2018

## Windy daylight,

### The first sought after educator Moses.

Coast Trust prosperity program in North Dhuong union of Kutubdia upazila is running 45 education centers in collaboration with PKSF. In the 45 Education Assistance Center, 1350 students are given classes from 3 pm to 5 pm| The aim of the education center is to prevent the storm from the primary school, to ensure the ardent education in the education aid center, to eliminate the fear of the students from the education institute. Apart from this, every month, parents' parents and guardians have been completed in 45 Education Assistance Centers, thereby increasing the interest of students / students. Weekly cultural anastasis were organized at each educational aid center. As well as education, these education is also supported by the education of socialism, morality and patriotism in the center. In order to ensure transparency and accountability of the Education Assistance Center, a monthly fee of Rs.20 per student has been received from the students.. In this context, Md. Rafi has not been regularly appearing in the Education Assistance Center for the past few days. Md: Rafi second class meritorious students. His father farmed his livelihood. The only income-tax person in his brother's house is his father Md. Abdur Rahman. In the absence of money, the only son can not study the child. So take him to work with his son. It was good to have their days. But within the boy, the boy is eager to study. On 16th August, Supervisor Education Rifat Sultana Manu Sikder visited the Education Center and visited the Daily Hazira Register. Md Rafi was not present at the education center for some days. So after the house of Md. Rafi with the teacher concerned Going home, she talked to Rafi's guardian about the facilities of education. Later, Rafi's guardian met with the monthly guardian meeting and discussed the matter and everyone was agreed with the decision that Md Rafi now has a regular student education support center Md. Rafi will now go to

the regular Education Assistance Center to study. As a meritorious student, he has secured second place in second class from first class of Charudhuring Government Primary School.

## **Energetic members (beggars) Rehabilitation:**

Through the Coast Trust enrichment program, two beggars are settled in the North Dhuong Union every fiscal year. In the same context, in the meeting of the ward development coordination meeting in 2017-18 fiscal year, Senior Citizens of the Committee said that a beggar His name is Abdou Shamad. She has three daughters. There is no person earning money in the family. Nor did he take serious injuries on his legs. In such a situation, he could not afford the family to pay for the treatment of the foot He and his wife begging the family to be able to earn their livelihood, manage the family. But still they did not see the light of light One of two girls can not even study. How can they get their salt to drink water? When the members of the committee and the Social Development Officer go to see him, they talk about the progress of his condition. The Social Development Officer discussed this with

prosperity project coordinator and brought him under the beggar full-time. And in accordance with the various rules of the organization, he is engaged in various business under the income generating project. The house of Abdus Samar was incompatible. The First Coast Trust Trust has built a house to live in. After that, he trained four goats with the training on the goats and Abdu Chhad was bought for the dry trading business. Abdu Shamad is no longer a beggar. He is a small business in the society.

### **Satellite Clinics:**

Chabakun Nahar, age 35 Kutubdia lived in Chatti Para village of North Dhruong union of the upazila. Survey ID No-407 of the house She is a homemaker and is a fisherman in her husband Mustafa Kamal profession. Chabakun Nahar is the mother of four children. Two boys, two daughters Her husband Mustafa Kamal's family is the only earning member. The financial condition of the family is very bad. A few days ago he suddenly became sick. No doctor could show due to poverty. The Health Inspector of Coast Trust Prosperity Program Amena Akhter came to know about the illness of Mustafa Kemal. Amena Akter initially advised her to go to a static clinic. When he went to a static clinic, the program's health officer Shahinur Rahman examined him and sent him to a satellite clinic administered by MBBS doctor because the condition was not good. In the same way, on 12-09-2011, he was on 12-09-2018. On Saturday, Dr. Zainul Abedin, a clinical clinic conducted by the Coast Trust enrichment program at Chardharun Government Primary School, provided free medical services and advice to him. He was suffering from urinary tract infections. He was given some medicines free from the organization. Then the health officials and health inspectors of the Coast Trust enrichment program follow the follow-up. He is now completely healthy, following the advice of the doctor.

### **Habibulla prosperity home:**

Coast Trust Prosperity Program North Dhruong Union has already built 50 prosperity for the purpose of building prosperity, technical and strategic assistance to build the house. The initiative development officer gave information about Habibullah (55) and his wife Manjura Begum in the East Bagkhali ward of Ward No 6 of the Union. The owner of the house Habibullah said some parts of the union. Though there is an interest in planting various trees and trees, there is no strategic advice. But the Coast Trust Prosperity program is getting 12 percent of the suggestions and assistance from the development. Diversion of poultry farm, pond farming, establishment of vermi compost plant, flower gardening, cow feeding, production of poisonous vegetables, and various income-generating activities. He said I extended income from my home. Want to transform my home into prosperity home by dedicating your own interests and using your suggestions and plans. Already around the house has been fenced. Nearly with a gate in the house. We are working to implement all materials.

### **Health Awareness Meeting (Courtyard Meeting):**

In the North Dhruong Union, 11 health inspectors in 9 wards, 44 health awareness meetings every month (wake up meeting) to create awareness in different places of the ward is organized for. In the presence of 20 women / men each court meeting was organized. Common things discussed in the meeting include: pregnant mother care, pregnancy mother's vaccine, pregnancy mother's checkup, hazard signs of pregnancy, Birth Planning, Birth Disease Signs. Every month, health inspectors organize and organize such health awareness meetings in each ward. Apart from this, to free all the people of the union, 100 percent worm free worm tablet Free nutrition in the nutrition of the child, free capsules are distributed free to stop the pregnancy of pregnant mother. Health officer of Kutubdia upazila said that due to this yatra meeting, there were six unions between the North Dhruong Union 100% worm free. There are no more deaths here.

### **Youth Coordination Meeting:**

We know that one third of Bangladesh is youth society. But they are now going astray due to lack of proper testing. So the Coast Trust prosperity program has been implemented so that in every ward of the North Dhruong Union, the youth society of the area can not be involved in unfair and anti-national activities, so that the dive committee has been formed with the youth in every ward. In order to prevent eve-teasing, child marriage, child labor, storm prevention, youth will work. Moreover, they will stand united and stand against every injustice of society. Volunteer attitude will be created among them. The Coast Trust enrichment program organized a two-day Youth Coordination Meet organized to guide the youth society in the right direction and after every six months, union coordination meetings were organized with every youth of the union. It is discussed in the future about the future of the youth.
