

PPMM Presentation, December-2020

Welcome to

Climate Finance Transparency Mechanism (CFTM) project

The basic objective of the current project is;

- To build up and enhance of self-capacity of CSOs. So that they will be able to involve with self-planning, identify and analyses the information of govt. Development initiatives through climate finance activities and raise voice at local, National and International level.
- To sensitize govt. officials on climate governance issues. So that practice change on climate governance issues will be expedite and accountability level increased.
- Conduct public awareness activities for prevention of COVID-19.

CFTM project result area-

- 1) Strengthening MRV: Strengthen the MRV mechanism of IMED and other oversight institutions.
- 2) Social Accountability: Strengthen CSO capacity to analyze the information, track the funds and engage with authorities in a positive manner.**
- 3) Political Ownership : Bringing People's Voice at Parliament and Global Forum to improve climate governance
- 4) Accessing & Utilization of Fund: Influence/Support Government, private sector, CSOs to develop the capacity in accessing & utilizing of national & international fund
- 5) Policy Practices & Reform: Influence/Support Government, private sector to improve governance in tackling the impact of climate change (through practices & reform of policy, procedure, strategy, law, rules, regulation, etc.)
- 6) Reduction of GHG emission: Influence/Support Government, private sector & citizens to improve governance practices and behavior in order to reduce GHG emission
