ACTED's Country  
Representative, Fabrice  
Amaudruz visited SEP's  
Dry Fish Project in  
Nazirartek, Cox's Bazar

Fabrice Amaudruz is  
observing a Fish Drier

Place: Nazirartek

PC: Tusi Banik 7<sup>th</sup> Feb 2022

**SEP** of COAST Foundation has started its journey with dryfish project which implemented by COAST Foundation and supervised by PKSF. This project will strengthen the self-resilience of dry fish worker and ensure protective environment for organic dryfish marketer. During the project, various workers from home and abroad came to see the dry fish cluster to know the facts of safe dryfish production. Recently, ACTED's Country Representative, Fabrice Amaudruz visited SEP's Dry Fish Project in Nazirartek, Cox's Bazar, and COAST SEP staffs cooperate him with pleasure.

**Cox's Bazar** is a boon city for the production of Dry fish because there has the largest sea beach of the world. The small entrepreneurs of the dry fish production are always keen to increase their business by taking loans from various sources. An entrepreneur of Rastar Para, namely Absar Kamal, is enriching his business with SEP loan. That's why, in his cluster, toilet and tube-well has been set up by COAST SEP Project for safe dry fish production. He is committed to using these grant items properly and on the basis of the community around him. Above all, he wants COAST's improvement so that he can get more help later.

**Barren Dry fish field in Absar Kamal's cluster at Rastar Para, Khurushkul**
