Mr. Bimal Chandra Dey Sarkar, Executive Director of MUKTI said, Human Rights are being violated all over the world. Peoples of Cox's Bazar received Rohingya at first; now peoples of Cox's Bazar are being deprived. Now poor people's suffering in Cox's Bazar district has been increasing district day by day. Many of the poor people in Cox's Bazar lost their jobs and they don't have enough food to feed themselves. For that reason, we demanded allocation of food and projects for the host community, he maintained. He said, INGOs hired trained workers of the local NGOs by the enticement of high salary. We have urged to INGOs not to adopt such kind of strategy. Journalist Md Ali Jinnat said, the indiscriminate killing of Rohingya people is not only human Rights violation, it is Genocide. In spite of that, leaders of the world community did not impose pressure on Myanmar government to stop the genocide. Moreover, the local people of Cox's Bazar are being depreciated for the influx of Rohingyas. Journalist Mr Fazlul Qader Chowdhury briefly sketched the history of Rakhain state. He said, our old friends India, China and Russia did not support us;

rather opposed the position of Bangladesh. Many oppressed Rohingyas came to Bangladesh when an agreement was signed between Bangladesh and Myanmar. He maintained, what was the meaning of the agreement? He fiercely criticized Aun Sun Suki's role.
