Objectives	<ul style="list-style-type: none"> (i) Provide short overview of Grand Bargain 3.0 for implementation. (ii) Express concern on how emphasizing could be given to localization, accountability to the affected population and aid transparency. (iii) Express views on how we can give more focus in reshaping / reforming the aid architecture in humanitarian response.
Background	<p>As we know, the Grand Bargain declaration was made in May 2016 at the World Humanitarian Summit (WHS), with commitments focused on localization, aid transparency, and other key themes. A total of 68 organizations are signatories to these commitments and submit annual progress reports in each year. The Inter-Agency Standing Committee (IASC) facilitates the progress of these commitments through a secretariat. Recently, the Grand Bargain introduced its revised version, Grand Bargain 3.0, to the public, an annual meeting has had happened during October 2024 in Geneva.</p> <p>The implementation of GB 3.0 will be emphasized until 2026, raising the question of how best to accelerate this process. A recent meeting organized by ICVA and CHS Alliance served as a review workshop, discussing future directions. Emerging perspectives suggest the commitments should be shorter and simpler to support effective implementation, with a strong focus on localization, accountability to affected populations, and aid transparency.</p> <p>Several networks and groups are active in supporting these priorities. COAST Foundation, for instance, has initiated a popular country-wide effort, the 'BDCSO Process,' to advance these goals. Similarly, the CCNF (Cox's Bazar CSO NGO Forum) has emphasized a localization roadmap for the Rohingya response. These groups are hosting this event to share insights and experiences on accelerating the implementation of Grand Bargain 3.0, especially at national and local levels."</p> <p>Please note that COAST Foundation possesses strong technical capabilities for conducting international webinars, and Rezaul Karim Chowdhury brings extensive experience in moderating these sessions, including at UN, WTO, and UNFCCC platforms. He has participated almost all the regional conferences of the World Humanitarian Summit (WHS) and served on the governing board of HAP/CHS Alliance for approximately 15 years. COAST Foundation also holds special consultative status with the UN ECOSOC.</p>
